2022

A large-scale fireworks display at night. The sky is filled with numerous bursts of golden-yellow and white sparks. In the foreground, several large, fan-like bursts of bright blue and white sparks erupt from the ground. A crowd of people is visible in the distance, watching the show from a grassy area.

PyroStern (Markus Merz)  
**Wahrenholz 2022**

A fireworks display at night featuring a complex, geometric pattern of white sparks. The sparks form a series of overlapping, star-like shapes that resemble a large, intricate web or a series of intersecting planes. The background is dark, and the ground is visible in the foreground, showing some structures and a crowd of people.
